

## **SPE® POSTS FINAL SCHEDULE FOR 8<sup>TH</sup>-ANNUAL ACCE SHOW, RECOMMENDS PRE-REGISTERING**

**TROY (DETROIT), MICH.** – The final conference schedule (by day, session, and room) for the 8<sup>th</sup>-annual ***SPE Automotive Composites Conference & Exhibition*** – the world's leading automotive composite forum – has been published at [www.speautomotive.com/comp.htm](http://www.speautomotive.com/comp.htm). This year's event features 62 technical presentations, 9 keynote addresses covering a variety of topic areas, 1 panel discussion – a government-industry panel on the *Future of Automotive Composites* – and 2 networking receptions. Mini-abstracts for the technical presentations and keynotes will be published shortly so attendees will have time to review the program offering and decide which presentations they prefer to attend in each time slot during the conference's 2-3 parallel technical tracks.

Despite a very-challenging North American automotive market, conference organizers are pleased that they are once again able to offer a solid technical program discussing innovative materials, process advances, and new applications. Sponsorship has also remained strong for this year's event and pre-registration is ahead of where it was last year at this time.

Owing to the long lines that are common early on the first day of the show, organizers request that those who know they plan to attend the conference please pre-register. That will speed entrance into the conference and also help organizers eliminate the risk of over- or under-ordering food and show registration packets. The registration form will also be found at [www.speautomotive.com/comp.htm](http://www.speautomotive.com/comp.htm).

For more information about the SPE Automotive Composites Conference, visit the Composites' Division website at [www.4spe.org/communities/divisions/d39.php](http://www.4spe.org/communities/divisions/d39.php), or the Automotive Division's website at [www.speautomotive.com/comp.htm](http://www.speautomotive.com/comp.htm), or contact the group at +1.248.244.8993, or write SPE Automotive Division, 1800 Crooks Road, Suite A, Troy, MI 48084, USA.
